GOVERNMENT ELECTRICITY DEPARTMENT

From

Sri V.P. Appadurai, B.A., M.I.E.(Ind.),
Chief Engineer for Electricity,
157, Mount Road, M a d r a s.

To

The Secretary to Government,
Public Works Department,
M a d r a s.

No.99-H1/55-11 dated 18th April 1956

Sir,

Sub: Electricity Department--Establishment--Temporary--South Kanara Extension Scheme--Staff--continuance--requested.

Ref: 1. G.O.Ms.No.3720 P.W.D. dated 28-9-1955
2. G.O.Ms.No.4744 P.W.D. dated 21-12-55
3. G.O.Ms.No.798 P.W.D. dated 16-2-1956.

Sanction was accorded in G.O.Ms.No.798 P.W. dated 16-2-1956 for the continuance till 31-5-1956 of the staff specified in the annexure to the G.Os first and second cited for attending to the construction works connected with the execution of the above scheme. The sanction accorded in the G.O. third cited for the continuance is due to expire on 31-5-1956.

2. I invite a reference to para 3 of my letter No.99.H1/55-7 dated 24-1-1956 wherein it was reported that the continuance of the division for a period of three months from 1-3-1956 and one sub-division including the staff in the Superintending Engineer's office upto 30-9-1956 is quite essential. But sanction for the continuance of the staff of the division and sub-division including the staff in Superintending Engineer's office was accorded only upto 31-5-1956 in G.O.Ms.798 dated 16-2-1956.

3. I have to state that the following will be the balance of works to be attended to after 31-5-1956.

(a) Construction of Telephone line by the Posts and Telegraph Staff:

Though the work is to be done by the Post and Telegraph Department this department will have to arrange for tree clearance, transport and similar facilities.

(b) Construction of additional buildings of (1) Repair house (2) Asst. Engineer's quarters and (3) Inspection Bungalow at Mangalore Substation:

Work has already been commenced for items 2 and 3 during March 1956 and these buildings are expected to be completed within four months. For item 1, repair house, the work will be done departmentally. Action is being taken to start the work early.

(c) Well Work at Udipi:

Though the work has been commenced the deepening of the well has to be continued to ensure maximum depth of water during summer.

cont...2

(d) Switching Stations:

The works connected with the construction of buildings, well work etc. at Halady and Hasangady switching stations are taken up for execution. The construction of these buildings will spread over a period of about 5 months in view of the stations being situated far from the rail head and developed places.

4. Considering the balance of works that may be left over beyond 31-5-1956 it is necessary to continue the sub-division at Udipi for a period of 4 months from 1-6-1956. As the field works will be in progress to end of 30-9-1956, the staff sanctioned for circle office have to be continued to end of 30-9-1956 for attending to the accounts works and passing of bills etc. on the South Kanara Extension Scheme. The Division Office at Mangalore will be closed by 31-5-1956.

5. A statement showing the posts for which sanction is required beyond 31-5-1956 is enclosed. I request that Government may be pleased to accord sanction for the continuance of the staff for the period noted against each.

Early sanction is requested.

For CHIEF ENGINEER FOR ELECTRICITY.

FINANCE DEPARTMENT

W1
2674 R/56-1
3-5-56

Finance (E-II) Department

The draft order on pp. 1-2 above may be accepted, subject to the following remarks:

It does not appear that the C.E.(E) has given detailed justification for the continuance of the entire field staff attached to the Sub-Division till 30-9-56 for attending to the balance of works referred to on pp. 1-2 c.f. Four posts of Junior Engineers or Supervisors I Grade (civil),(Elecl) or (Mechanical) have in all been proposed for continuance till 30-9-56 among other staff. As the balance of works may not present very many engineering problems and justify the continuance of the entire fielded staff, this department may suggest that two of the four posts of J.Es may be retrenched with effect from 31-5-56 AN and the A.E. asked to manange with the rest of the staff.

See below

Similarly, the need for the continuance of the post of a Lower Division clerk in the S.E's office is not quite apparent especially when the works are on the verge of completion. It should be possible for the U.D.Clerk to attend to the work without the assistance of the L.D.Clerk. In this view, this department may suggest that this post may also be retrenched with effect from 31-5-56 A.N.
